

Who we are?

Our business aims to provide the best dog-walking and training service in the city. In order to keep delivering our premium service, we set up this website for your convenience. This web-application will allow you to set up appointments to have their dog walked and/or trained. The dog walker assigned will be based on the type of dog to be walked/trained, the walkers and trainer sent during the meet & greet, and the availability of staff at the time of appointment. During the day of the walk, the dog walker will be keeping track of how the dog behaves: leash behavior, walking energy, bathroom behaviors, and other characteristics. The motivation behind our business is to help dog owners who are too busy to take their dogs on regular walks or training sessions, but want a professional and quality service.

A True Dog deserves a TruWalk.

Here our some of our most loved clients

Jack

Jack is a hit not only with our team of trainers and dogwalkers, but also with the frequent visitors of Central Park. Jack has impressed many with his enthusiastic personality and has gained the love of all he meets.

Rose

Rose is a playful puppy that enjoys the outdoors. She loves to travel and to run around in parks, where she can meet new people and get all the belly rubs she can.

Luke

Luke is a sociable puppy that loves to play with his friends. He loves the outdoors, especially dog parks - so he can gather more friends and grab the attention of park visitors.
